

Delivering the Net Zero Capital of Europe

For over fifty years, the North East of Scotland has made a crucial contribution to Scottish and UK energy security and international competitiveness.

There is now a unique opportunity to usher in a new era of accelerated regeneration, decarbonisation, innovation and investment, creating **32,000 high quality jobs** and opportunities for those that need them most.

With Scottish Government and UK Government backing, the North East Scotland Green Freeport can **boost GVA by £8.5 billion** over the next decade and **transform the region into the Net Zero Capital of Europe.**

North East Scotland Green Freeport is a collaborative venture led by Port of Aberdeen, Aberdeen International Airport, Peterhead Port Authority, Aberdeen City Council, Aberdeenshire Council, joining forces with regional stakeholders, private sector companies and academia to drive forward a successful bid.

We're backing the bid:

Michael Milne
AB11 Property Group

Russell Borthwick
Aberdeen and Grampian Chamber of Commerce

Angela Scott
Aberdeen City Council

Cllr Alex Nicoll
Aberdeen City Council

Cllr Ian Yuill
